

COVID-19 benefits and services

Due to the COVID-19 pandemic, we've added or expanded certain Blue Cross Complete benefits. We want you to be safe and healthy, while continuing to receive the care you need. For up-to-date COVID-19 resources and information, visit mibluccrosscomplete.com/covid-19 or michigan.gov/coronavirus.^{*} For information about the COVID-19 vaccine, visit michigan.gov/covidvaccine.^{*}

Telehealth

With telehealth, also called telemedicine, you can receive health services by phone or video call. Ask your doctor's office if they offer telehealth services. When you set up an appointment, your doctor will provide additional instructions. See your Member Handbook for more information about telehealth. Or visit mibluccrosscomplete.com, hover over *Member Benefits*, then click *Telehealth*.

Testing

If you develop symptoms of COVID-19, such as shortness of breath, sore throat, fever or cough, or you've been exposed to someone who tested positive for COVID-19, contact your doctor. Or call our 24-hour Nurse Help Line at **1-888-288-1724** (TTY: **1-888-987-5832**), 24 hours a day, seven days a week. The doctor or nurse can help determine if you should be tested for COVID-19.

Testing done at a clinic, lab or pharmacy is more reliable than a self-test, especially if you don't have symptoms, according to the Centers for Disease Control and Prevention. Blue Cross Complete covers all COVID-19 testing, including in-home testing kits. Bring a photo ID and your Blue Cross Complete member ID card to the testing site, or pharmacy or clinic if you're purchasing a self-test.

Self-tests

A self-test, also called a "home test" or an "over-the-counter" test, is an option if you can't get to a testing site. It offers fast results and can be done on your own, as needed. Blue Cross Complete covers one self-test per day from a Medicaid-enrolled pharmacy. A health care provider, such as your doctor, nurse or pharmacist, must prescribe the test. If you pay for a self-test, save your receipt for reimbursement from Blue Cross Complete. For more information about reimbursement, call Customer Service at **1-800-228-8554**, 24 hours a day, seven days a week. TTY users should call **1-888-987-5832**.

You can also have no-cost test kits mailed to your home by visiting covidtests.gov.

COVID-19 vaccine

People ages 6 months and older can receive a COVID-19 vaccine at no cost. The CDC also recommends a booster dose for everyone 5 and older at least five months after receiving your primary vaccination series. This includes people who are pregnant, breastfeeding, trying to become pregnant or might become pregnant later. You can get the COVID-19 vaccine at the same time as other vaccines.

Talk with your doctor or pharmacist about getting vaccinated. A consultation visit is covered for parents who want to discuss vaccination with their child's pediatrician.

Visit [cdc.gov](https://www.cdc.gov) or michigan.gov/covidvaccine for the most updated information about vaccines and who is eligible and recommended to get them. Visit michigan.gov/covidvaccine* to find a vaccine site near you. Once you find one, contact that site for more information about their services. Vaccines for people ages 3 and older are available at local pharmacies. For children under 3, schedule an appointment with the child's doctor.

You can get interpretation services through Blue Cross Complete at no cost by calling Customer Service at **1-800-228-8554**, 24 hours a day, seven days a week. TTY users should call **1-888-987-5832**. For more information about the COVID-19 vaccine, visit mibluccrosscomplete.com/covid-19.

**Blue Cross Complete doesn't own or control this website*

Copayments

There are no copays for COVID-19 testing, treatment or vaccines. This includes office visits, prescriptions, diagnostic imaging, medical supplies and equipment, and inpatient and outpatient hospital stays for treatment related to COVID-19. Copays for these services are waived for Healthy Michigan Plan members during the COVID-19 emergency period. Traditional Medicaid members don't have copays for services covered by Blue Cross Complete.

Transportation services

You can get transportation to vaccination or testing sites where you can be dropped off. Our transportation provider won't bring members through drive-thru vaccination or testing sites. If you drive yourself or are driven by a friend or family member, you may be able to receive reimbursement for gas. For more information or to schedule a ride, visit mibluccrosscomplete.com/transportation. Or call **1-888-803-4947** Monday through Friday from 8 a.m. to 5:30 p.m. TTY users call **711**.

Durable medical equipment

You can have durable medical equipment, such as breathing and medical supplies, delivered to your home. Quantity limits and prior authorizations have been waived. This includes replacements if equipment is lost or damaged. Medical supplies you typically have delivered to your home, including diabetes supplies, incontinence supplies and enteral formula, are included. Surgical masks, hand sanitizer, gloves and patient gowns are covered. Your doctor can help you get durable medical equipment if you need it. Ask your doctor for a DME prescription if you need a surgical face mask. This isn't an N95 mask.

Nondiscrimination Notice and Language Services

Discrimination is against the law

Blue Cross Complete of Michigan complies with applicable federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability or sex. Blue Cross Complete of Michigan does not exclude people or treat them differently because of race, color, national origin, age, disability or sex.
