Title: **COVID-19 Vaccine - Enhanced Administration Fee**

Posting date: **August 2, 2021**

Summary: Blue Cross Complete is in the process of completing coding for an enhanced COVID-19 vaccine administration fee. The enhanced administration fee is to provide additional reimbursement as pharmacies continue to work to increase COVID-19 vaccination rates throughout the state of Michigan.

Claims adjudicated prior to coding completion will be retroactively corrected to ensure pharmacies receive the temporary \$47.85 administration fee.

Increasing COVID-19 vaccination rates – temporary administration fee enhancement:

Blue Cross Complete is paying an additional administration fee of \$10 during August and September 2021. A total of \$47.85 per COVID-19 vaccine dose administered will be reimbursed to the pharmacy for previously unvaccinated members.

The relationships you establish with your patients, along with additional education you provide to promote safe and effective vaccination, is essential to increasing vaccination rates. Your attention to this effort is appreciated.
