Title: **MDHHS urges providers to enroll now for COVID-19 vaccination of children ages 12 and under**

Posting date: **August 13, 2021**

To become a COVID-19 vaccinator, providers must be enrolled in the U.S. Centers for Disease Control and Prevention's COVID-19 Vaccination program. The Michigan Department of Health and Human Services is encouraging independent and health system affiliated pediatric providers to enroll now in preparation for COVID-19 vaccination of children.

Although the exact timeline for when to expect authorization for children less than 12 years of age is still unknown, **Blue Cross Complete strongly encourages providers to enroll in the COVID-19 Vaccination program now** so they're ready to offer vaccines to pediatric patients in the future.

To begin enrollment, please visit the MDHHS COVID-19 vaccine provider enrollment page at [michigan.gov](http://michigan.gov).\*

For more information about the COVID-19 vaccination program, visit the MDHHS COVID-19 vaccine provider guidance and educational resource page, also at [michigan.gov](http://michigan.gov).\*

We appreciate your continued support and commitment to the care of our members. If you have questions, please contact your Blue Cross Complete provider account executive or call Blue Cross Complete Provider Inquiry at **1-888-312-5713**.
