

Blue Cross Complete of Michigan CenteringPregnancy® Sites

CenteringPregnancy® is a program that matches you with other people with similar due dates for group prenatal care. You'll build a supportive community while getting pregnancy education. Topics include childbirth, nutrition, exercise, stress management, breastfeeding, parenting and contraception. Sessions are 90 to 120 minutes long. Participants are welcome to bring one support person.

You can attend up to 12 in-person group sessions per pregnancy. These are a supplement to your regular prenatal visits – they aren't a replacement for seeing your doctor.

The CenteringPregnancy sites listed here are accredited and contracted with Blue Cross Complete as of September 24, 2025.
